

# How Much Mulch Do I Need?

The following chart will provide a guideline for determining how many **cubic yards** will be needed.

To figure out how many *East Wind* Landscape Nursery front-end loader scoops of mulch you will need, multiply the number of yards by 2.

To figure out how many **cubic feet** will be needed multiply cubic yards by 27  
(example: .25 cu. Yd. X 27 = 6.75 cu. ft.).

Square feet to cover	Thickness (in inches) of mulch to be applied			Cubic Yards of Mulch Needed
	2"	3"	4"	
50	0.25	0.5	0.5	
100	0.5	1	1	
150	1	1.5	2	
200	1	2	2.5	
250	1.5	2.5	3	
300	2	3	3.5	
350	2	3.5	4.5	
400	2.5	4	5	
450	3	4.5	5.5	
500	3	4.5	6	
550	3.5	5	7	
600	3.5	5.5	7.5	
650	4	6	8	
700	4	6.5	8.5	
750	4.5	7	9.5	
800	5	7.5	10	
850	5	8	10.5	
900	5.5	8.5	11	
950	6	9	12	
1000	6	9	12
